Re: Protecting and Promoting the Open Internet, GN Docket No. 14-28, Connect America Fund, WC Docket No. 10-90, Developing a Unified Intercarrier Compensation Regime, CC Docket No. 01-92

Dear Mr. DelNero:

Pursuant to the Federal Communication Commission's *Open Internet Order*¹ Easton Telephone Company (SA #361384) hereby notifies the Bureau of its intention to cease offering broadband Internet transmission service as a separate component of its broadband Internet access service effective April 1, 2017. As such, the transmission component will only be provided as part of the complete broadband Internet access service.

The FCC made clear in the *Rate-of-Return Connect America Fund Order*², as well as the *Clarification Order*³, that a rate-of-return carrier could make the offering described above, and thus the revenues associated with the broadband Internet access transmission would no longer be subject to the federal universal service fund assessment pursuant to FCC Form 499-A.

Easton Telephone Company currently provides broadband Internet transmission service as a detariffed Title II offering. The only customer for the Company's broadband Internet transmission service is the Company's affiliate nonregulated ISP. Notice to the affiliate ISP was provided this date by interoffice memorandum that the Company will discontinue the offering of broadband Internet transmission service as a separate component of its broadband Internet access service effective April 1, 2017.
